

General Information:

Thermoformed ABS and Styrene plastic form liners are an inexpensive alternative for providing architectural concrete. The Styrene single use liner is the least expensive liner option. The ABS plastic form liner properties allows for an up to ten reuse factor depending on the design and handling.

POSITIVE ISOMETRIC SHOWN

Note:
Pattern may require additional backing. We recommend a mockup pour simulating job conditions.

Thermal Deformation:

- Do not expose to temperatures >140°F (60°C)

Thermal expansion:

- +/- 1/8" @ 70°F

Care and Handling:

- Keep out of the sunlight and covered when not in use
- Keep away from steam, acids, and certain fuels
- For further instructions refer to the application guide

Material	Product Code	# of Reuses	Std. Dims.	Color
Styrene	8033-STY	1	4'x10'	White
ABS	8033-ABS	Up to 10	4'x10'	Gray
